Commander's Intent

In FY2016, ILWG will increase the complexity and breadth of training for air and ground emergency services by developing and qualifying additional personnel to undertake ES tasking and responses in both traditional search and rescue (SAR) and emerging disaster response profiles (natural and man-made). IL Wing is capable of short-duration stand-alone operations with niche roles in Homeland Security and as an augmentation force within the Great Lakes Region (GLR) and nationwide, acting as a force-multiplier. Specific emphasis areas will include:

- * Develop a robust Incident Command staff (IMTs) for sustained operations
- * Increase and retain the number of mission-ready SAR/DR pilots
- * Increase and retain the number off mission observers, scanners, and aerial photographers
- * Increase the number of GIIEP-capable aircrews/operators
- * For Counterdrug Recruit and Train MP capable personnel who are available during the business week.
- * Provide non-pilot aircrew members training opportunities so as to attain and retain currency in the complex G1000 platform and increase the scope of mission profiles
- * Grow ground capabilities and improve training opportunities with an emphasis in fielding Urban Direction Finding Teams.
- * Meet communications demands from internal and external customers including (but not limited to) base comms, mobile comms, "high-bird" relays, and inter-agency comms.
- * Enhance training through multi-wing exercise opportunities to increase the ability to operate in large, more-complex, and emerging non-traditional mission profiles. IL Wing will become more proficient in multi-wing exercises and the employment of both fixed and mobile command post operations.
- * Increased inter-agency involvement with SAR/DR/HLS partners throughout IL and the GLR. Agencies will include (but not limited to): local Community Emergency Response Teams (CERT), local emergency management entities (EMAs); county EMAs, IL EMA, IL SAR Council, IL National Guard, US Army Corps of Engineers, and FEMA Region V.

Requirements

The following IL Wing resources are needed in order to achieve the Commander's Intent. The items listed herein establish a Requirements Baseline against which future developmental actions will be measured.

To manage an incident response of at least five days, IL Wing needs to field an IMT from the Wing Hq staff and at least one from each Group.

To sustain flight operations over five days, we need five (5) qualified aircrews for each ILWG aircraft (9 a/c, as of Jun15). That staffing requirement falls to the units with assigned aircraft. Ground operations requirements call for UDF teams and full ground teams throughout the Wing. The vast territory (in terms of square miles) of IL requires special attention given geographic areas currently under-served by CAP resources.

Every unit will be required to field at least one UDF team (larger units – 2). Every Group will field at least one fully trained and equipped GT (larger groups - 2). These requirements will be based on each Group's percentage of the Wing's overall membership (see Membership Table).

Wing HQ Ops/ES staff will work with individual Groups to facilitate training opportunities.

The ILWG Director of Communications will determine current and desired levels of communications resources and trained personnel.

Goals, Objectives & Tasks

1. (GOAL) Increase the number of qualified communicators and the number of active radio operators within the wing. Start looking forward to changes in communications qualifications that will be required in the future and encourage training in preparation for those changes.
 - Encourage communicators to attend COML and COMT certification classes, which will be needed in coming years.
 - Each group should work towards having at least one COMT and COML certified member. Identify, with assistance from the DC, classes that are available nearby and encourage participation
 - Increase the number of active HF stations and operators within the wing. This is critical to enable long-distance communication within the wing and with other parts of the country.
 - Establish an expectation that each group have a minimum number of HF stations actively participating in ILWG, GLR and National nets. This can be based on the number of units, members or geography served but an absolute minimum of one per group.
 - Wing DC will provide, or reassign, HF radios and related equipment to support this objective.
1. Continue to foster inter-agency collaboration, training, and exercising opportunities so as to enhance CAP's role as a valued member of the IL emergency response community.
 - Assign all Counties to a specific Group for Liaison Purposes. Groups may further assign subordinate units to develop and maintain emergency services and operational relationships.
 - NO tasks for this objective
 - Introduce Homeland Security Exercise Evaluation Program (HSEEP) standards into Wing-level exercises. HSEEP compliance is a key factor in inter-agency dialogue and joint exercise participation.
 - Provide HSEEP training for current IMT staff and IMT trainees.
 - use HSEEP concepts to prioritize Wing-Level training scenarios, evaluate mission performance, and to provide "Need to Improve" targets for future exercises.
 - Squadron and Group communications officers, consulting with the wing DC, will develop relationships with potential EMA counterparts in their AOR. The intent is to build inter-operable communications agreements with them, along with identifying opportunities to assist communications needs in their area with airborne repeaters, emergency communications, etc.
 - NO tasks for this objective
 - Wing DO/DOS/GR will continue to provide liaison with Federal, Regional, and State emergency response agencies. These contacts and relationships should focus on CAP's SAR/DR capabilities and ways we may supplement response within IL and the Midwest.
 - Work with IL National Guard on integrating CAP resources. Participate in ILNG training events and exercises.
 - Continue to work with IEMA on alert and activation of ILWG SAR/DR assets.
 - Re-establish relationship and partnership with IL SAR Council
1. Continue to provide Counter-Drug (CD) initial and recurrent training.
 - Provide CD training days for Northern and Southern CD personnel.
 - NO tasks for this objective
1. Enhance IMT SAR-planning skills by hosting and promoting the USAF Basic Inland SAR Course (BISC) in FY2016.
 - Plan and host a USAF BISC Course
 - Plan and Host a USAF AFRCC BISC Course
1. Ensure ILWG assets and resources are employed sufficiently and efficiently to support overall SAR/DR/Comm capabilities, with an emphasis proportionate to geographic coverage.

- ILWG will become more familiar with Area Command and Unified Area Command incident command philosophy and practice.
 - (Task) ILWG DO/DOS will coordinate with at least one other GLR wing to conduct a multi-wing exercise, with a focus on Unified Area Command incident management familiarization (and eventual proficiency)
- Increase the number of available/qualified SAR/DR/Comm personnel to the FY2015 levels identified in the Requirements sections
 - IMTs: Current ICs and the Wing Ops/ES staff will recruit and facilitate training for IMT positions to staff beyond current overlapping qualifications.
 - Aircrews: Wings DO and wing Ops/ES staff will work with Groups to recruit, train, and maintain current/qualified MP/TMP/MO/MS/AP to desired manning levels.
 - UDF/Ground Teams: Wing DOS/DOST/DOST-G will work with Groups to recruit, train, and retain qualified/current GTL/GTM/UDF personnel to desired manning levels (with an emphasis on under-served territories in IL)
 - Comm Unit Leaders/MROs: (see comm-related goals)
 - Mission Base Staff: Wing ES staff will work with Groups to recruit, train, and retain current/qualified MSAs to meet desired manning levels.
- Provide initial and recurrent training opportunities throughout the Wing to support manpower requirements.
 - ILWG DOS/DOST will coordinate with Group Commanders (or ESO designees) to facilitate local classroom and field training activities for the various ES specialties
 - ILWG DO/DOS will continue to facilitate Wing-level Check-pilot clinics and quarterly IC summits.
- Provide several mid-level SAR/DR exercises and two large-scale exercises to not only offer training opportunities but also evaluate Group and Wing mission proficiency.
 - ILWG Ops/ES staff will host/manage TWO large-scale exercises designed to test our incident management proficiency and multi-faceted mission demands. The Biennial Guided Training Exercise (GTE) will focus on lessons-learned and area in need of improvement from the previous USAF-Evaluated exercise.
 - Each Group within ILWG will host/manage at least one mid-level SAR/DR exercise within their Area of Responsibility (AOR)
 - Each Group within ILWG will host/manage at least one "High-Bird" communications exercise within their respective AoR.
